Potentially Relevant References.docx  
Reference Review Method.docx

Hi Karen,

Please see the attached documents for a list of technical references that may be relevant to the comprehensive review of the Bay-Delta Plan. Reference Review Method.docx describes the method used to identify technical references and Potentially Relevant References.docx includes approximately 148 reference citations; ~ 56 of which were published in 2010 or later.

I wanted to get you a list as soon as possible but it would be useful to discuss next steps. I'll be away from the office Thursday and Friday this week but available all next week.

I'm available until 2:00 PM today if you have any questions.  
Erin

**Subject:** reference lists and scoping comment letter

Erin,

Thank you for your assistance with the comprehensive review of the Bay-Delta Plan. Per our discussion, attached are the reference lists for the Delta Flow Criteria Report and the Periodic Review Staff Report. Also attached is the comment letter from the San Luis and Delta Mendota Water Authority and the State

Water Contractors containing the list of scientific articles published since 2009 that they would like the State Board to consider. As we discussed, the target date of June 29 for identifying appropriate technical papers is flexible. If you need more time, let me know.

Thanks,

Karen[attachment "daniel\_nelson.pdf" deleted by Erin Foresman/R9/USEPA/US] [attachment "Delta Flow Criteria Report References.docx" deleted by Erin Foresman/R9/USEPA/US] [attachment "Bibliography from 2009 Periodic Review Staff Report.docx" deleted by Erin Foresman/R9/USEPA/US]
